

OUTLINE: *Individual CIP Standards - Intensive Courses*

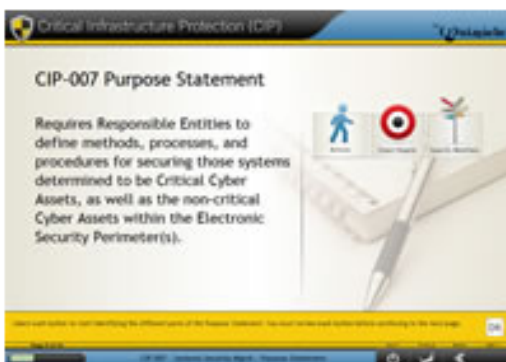

An on-screen Instructor presents background information on the specific CIP Standard.

An overview of the requirements present the scope of the CIP content.

Core content of the Standard and importance of an agreed upon definition in order to meet the Requirements.

The Purpose Statement of the Standard is defined by the actions necessary for compliance. Page interaction is engaging!

A Main Menu lists each Requirement of the CIP. Each presents detailed information and must be selected to complete the course.

A summary of specific Requirements, Measurements, Compliance Information and possible Audit Issues.

YOUR CUSTOM Policies and Processes for each Requirement of the CIP. ALL MUST be viewed before moving forward in the course.

Interactive Scenario presentation of compliance issues and violation penalties. Correct information is reinforced on the next page.

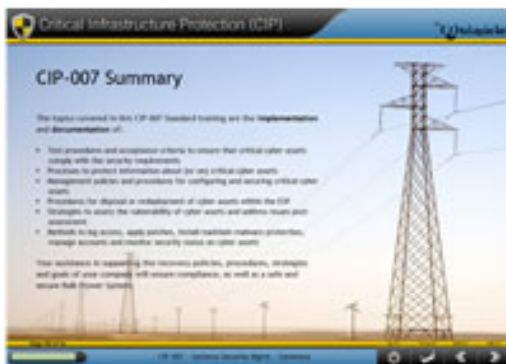

Challenges of current issues in meeting Requirements of the Standard.

Additional issues impacting your response tactics: such as regional differences in interpretation.

Violation Severity Levels, formerly "Levels of Non-Compliance", along with possible penalties.

A summary of the CIP before returning to the Menu to continue in the course.

A quiz on general information and company specific content reinforces knowledge and determines comprehension.

Upon completion, both score and status are reported to the Learning Management System. A Certificate of Completion may be printed.
